

## What We Do

We are a signage and display design and production company that builds the reputation of our clients. We help organisations stand out from the crowd and improve their bottom line with award winning visual communication.

**We survey, design, manufacture, install and maintain all kinds of signs.**

Our work is based on strong impact visual solutions

Custom-built Display Units  
Sales & Marketing Suites  
Portable Displays  
Point of Sale

## Our Heritage

EVM is short for Effective Visual Marketing and was founded by advertising copywriter, Paul Fennon, in 1991. Since then we have established ourselves as one of the country's most respected and leading sign design and manufacturers. We are known for our knowledge and ability to manage and deliver complex projects.

## What EVM is Known For

In our early years we developed a deep understanding of visual marketing solutions within key sectors including property development, utilities, financial services and public sector organisations. Since then we have developed our knowledge and have an unrivalled reputation for delivering quality work across a range of business sectors.

## Why EVM is Different to Work With

EVM's approach is to create and deliver. Our ability to produce and manufacture is as important as our ability to come up with great ideas. That way we control the creative process from conception to completion from within our own organisation without worrying about quality or delivery from a third party supplier. As a result we are effective and cost efficient in an increasing competitive world.

## Who We Work With

We have developed close working relationships with large and small organisations across many different sectors. We work in partnership with our clients and become part of their team.
